The company **Aquasanita** is one of the most well-known producers of granite sinks on the market. More than 80% of its products are exported to over 30 countries around the world. Aquasanita sinks meet the most demanding requirements for processing and quality of workmanship. Currently, Aquasanita is giving its sinks a new name **HELIKA**. With the idea of **living life at a slower pace** in harmony with nature. Therefore Helika, translated as snail. Helika products are designed to support a slower lifestyle and create a warm, caring atmosphere in kitchens.

The unique sink **Aquasanita Helika Clarus 780.0E** is one of the few round granite sinks with a drainer. The sink has gained popularity especially among customers who are close to a rustic kitchen style or the Provence style.

The Clarus 780.0E sink features a sufficiently **spacious and deep bowl** (19.5 cm), where you can comfortably wash even larger dishes such as big pots or baking sheets. The sink also offers a drainer, which is a practical helper for storing washed dishes.

One of the components of the Clarus 780.0E sink equipment is an **eccentric control**. Automatic drainage closure is a system that allows you to close and open the water drainage using a button. An important advantage of this solution is the fact that one movement is enough for immediate water unlocking without having to immerse your hands.

The surface of Aquasanita granite sinks is **smooth and easy to maintain**. A granite sink perfectly complements the concept of the entire kitchen, and there are several colors to choose from. Other advantages of granite sinks include color fastness, rigidity, and resistance not only to mechanical but also to chemical damage.

The sinks by Aquasanita are made of a very high-quality granite material **SILISCANA**, it is a third generation granite known for its strength and durability.

Key features of the AQUASANITA HELIKA CLARUS 780.0E kitchen sink

- round granite sink with a drainer and eccentric control
- Clarus 780.0E has an extended warranty of 5 years.
- The advantage is the color variability and the possibility to match it with the rest of the kitchen.
- It is a popular choice among customers.
- sufficiently deep 19.5 cm sink basin
- The sink is intended for top mounting.
- suitable for a cabinet of 50 cm
- made of high-quality materials

Note: *Colors may vary slightly in real life compared to the photos because the granite contains natural fillers and pigments.*

Tip at the end: *Remove limescale with a vinegar solution in a ratio of one to three. Apply the solution to the surface, let it sit for a few minutes, and then remove it with a sponge. A more fragrant way is to treat the limescale with a halved lemon.*

Parts of the packaging:
