

EcoMaster Externí krabice s pneuspínačem včetně flexokabelu

Ovládání drtičů, které nemají zabudovaný pneu-spínač (není potřebný pro
EcoMaster Plus a EVO)

EAN: 8596220000118

25,32 €

21,10 € bez DPH

External switch for controlling waste disposals using a pneumatic button and hose (for disposals without built-in pneumatic switches). Ideal for electrical outlets with limited space, only the plug is connected to the outlet, the box can be placed anywhere (laid down, screwed on, glued...).

Snakeskin and the button are not included in the package. The set is not necessary for controlling Ecomaster Plus and EVO3, which are equipped with a built-in switch at the bottom of the disposer.

For voltage: 220-240V

Current maximum: 13A

Power input max.: 2500 W
