Určeno pouze pro vysoušeč Jet Dryer COMPACT. Zachytí až 99% bakterií.

EAN: 8596220010407

8,76 €

7,30 € bez DPH

HEPA Filter is designed for the Jet Dryer COMPACT hand dryer. The certified HEPA filter is used to capture even the smallest dust particles.

Replacing the air filter

1. The HEPA filter is located inside the drawer on the front of the device.
2. First, remove the security screw on the bottom side of the drawer.

Pull out the drawer underneath the device with a horizontal motion.

Remove the HEPA filter from the extended drawer.

Cleaning the air filter

You can clean the filter with a gentle tap or using a vacuum cleaner, you can also use a soft brush.

Backward filter placement

Insert the filter back into the drawer with the HEPA filter facing up.

Attention! If not inserted correctly, dirt or dust will not be captured by prefiltration and will come into direct contact with the HEPA filter, thus shortening the lifespan of the HEPA filter.
