Určeno pouze pro vysoušeč Jet Dryer ORBIT. Zachytí až 99% bakterií.

EAN: 8596220006615

9,72 €

8,10 € bez DPH

The HEPA Filter is designed for the Jet Dryer ORBIT hand dryer. The certified HEPA filter is used to capture even the smallest dust particles.

Removal of the air filter

1. The HEPA filter is located inside the drawer on the front of the device.
2. First, remove the security screw on the bottom side of the drawer.

Pull out the drawer underneath the device with a horizontal motion.

Remove the HEPA filter from the extended drawer.

Cleaning the air filter

You can clean the filter with a gentle tap or using a vacuum cleaner, you can also use a soft brush.

Filter relocation

Insert the filter back into the drawer with the HEPA filter facing up.

Warning! If not properly inserted, dirt or dust will not be captured by pre-filtration and will come into direct contact with the HEPA filter, shortening its lifespan.
