320,90 € bez DPH

The ceramic single sink with a draining board **Reginox Modena II. 1000.0** is made in the Netherlands from high-quality materials. The sink will become a decoration for your kitchen and will meet all your expectations. The ceramic sink Reginox Modena II. 1000.0 has undergone innovation, which is why the number two is included in the name. The sink is a perfect combination of style and functionality for your kitchen.

The advantage of this sink is the flat storage surface without grooves for easy maintenance and cleaning. The practical sink with a drainer enlarges the workspace.

You can orient the sink according to your preferences, with the drainer on the right or on the left. The sink's glaze is smooth, long-term exposure to sunlight or even aggressive materials will not change the color or surface of the sink.

The surface of the sink is resistant to heat, thermal shocks, it does not absorb odors, and limescale and other impurities do not adhere to it. The sink is colorfast and remains beautiful for a long time.

The ceramic sink **Reginox Modena II. 1000.0** fits perfectly into modern kitchens, as well as kitchens in rustic or rural style.

Key features of the kitchen sink REGINOX MODENA II. 1000.0

- radiantly white ceramic sink in high gloss with a drainer
- 10-year warranty
- high-quality ceramics
- Double-sided orientation
- The siphon is located in the main sink trap
- total size: length 1010 mm x width 525 mm
- sink dimensions: length 460 mm x width 396 mm x depth 200 mm
- minimum required size of the cabinet: 600 mm

A ceramic sink is fired in kilns and the glaze is applied by hand, making each piece unique. It is necessary to take into account a tolerance of +/- 1-1.5 cm in dimensions. We recommend having the sink physically available for the realization of the kitchen counter.

Parts of the packaging:
