The leader in the market of prestigious sinks, Reginox, produces a luxurious copper sink set including accessories. Reginox has been in the market for over 39 years, placing emphasis on design, quality, and the environment. The stainless steel sink Miami 500 Copper / copper (R30738) is part of the design series of colored sinks called Regi-color, manufactured by Reginox using the highest quality materials.

RENOX MIAMI 500 Copper / copper sink

Miami 500 Sink goes well with warm-toned wooden boards. Reginox Miami 500 is a stainless steel single sink without a draining board designed for installation in a minimum 60 cm wide cabinet. The sink has a rectangular design.

The kitchen is no longer a closed space in the house, but it becomes a place of everything happening. Similarly, it is no longer valid that the washing area should only be functional, but above all it **MUST look good**. Get rid of the dull gray in the kitchen. Coloured stainless steel sinks are becoming a new trend, which are not only stylish but also give personality to the kitchen.

The Miami 500 sink basin is **deep enough** (20 cm) for comfortable washing of even large dishes, such as pots and baking sheets.

The main advantages of the Reginox stainless steel sink include easy maintenance and a high level of hygiene. **Resistance** to high temperatures, impact, and chemical effects. Up to 70% of Reginox sinks are made from recycled steel.

Key features of the Reginox MIAMI 500 COPPER kitchen sink

- High-quality stainless steel 1/10
- 0.9 mm premium thickness
- brushed surface
- PVD - technical coating
- scratch-resistant, colorfast
- resistant to thermal shocks (up to 300°C)
- resistant to color changes, for example from coffee, tea, fruit or vegetables
- drainage of 3.5 inches
- lifetime warranty on the quality of stainless material
- hygienic thanks to the smooth surface
- Easy maintenance

*** PVD - technical coating - PVD is a modern method of surface treatment that guarantees durability, attractive colors, resistance, and unique quality. It represents the surface's resistance to corrosion and rough handling. In a vacuum, micro particles are evaporated from a solid material and applied to the coated material under high pressure. As a result, they perfectly replicate the surface, and the color tones are not just a foil or a coating, but they are part of the metal. There is no risk of the color peeling off the surface due to scratches. Additionally, the method is considered very environmentally friendly, and the surface layer is hypoallergenic.*

CRYSTAL COPPER Kitchen Faucet / copper

Crystal Copper Sink Mixer (R30523), brushed nickel-copper. This kitchen tap complements the so-called range of stylish brass to perfectly match the sink. An ideal combination of style, quality, and performance.

Key features of the Crystal Copper kitchen faucet

- Lever faucet
- Stainless steel
- Rotary outlet
- Execution copper / copper
- Necessary opening for battery Ø 35 mm

REGINOX COPPER Soap Dispenser / copper

The **Reginox Copper detergent dispenser (R34811)** is designed for flush mounting. Built-in dispensers function as invisible reservoirs for cleaning agents. The container is always hidden below the level of the countertop and does not take up as much space on the work surface.

Key features of the Reginox Copper soap dispenser

- filling the dispenser: we replenish the built-in dispensers from above by simply pulling out the spout
- Execution copper / copper
- The dispenser can be filled with: cleaning agents, soaps, liquid soaps, shower gels, body and facial

cosmetics.

REGINOX MIAMI 50 X 40 COPPER sink grid / copper

R30677 Reginox Miami 50x40 Copper sink grid. The grid protects the sink from wear and tear. When using the sink, there is no need to remove the grid, as the water drains beautifully into the drain. Rubber feet and external borders of the grid ensure firm attachment to the bottom of the sink and protect the sink.

Key features of the Reginox Miami sink grid

- Stainless steel with PVD coating.
- Dimensions (L x W): 480 x 380 mm
- Execution copper / copper
