DUROPLAST

Duroplast WC-Sitze werden in Persenfabriken hergestellt. Das widerstandsfähige, strapazierfähige Material ist bruchstark und kratzfest. Die porzellanartige Oberfläche macht die Pflege leicht.

REISENKAUTOMATIK

Als Besonderheit gibt die innovative Mechanismatik, zu dem Zeitpunkt, den man sich nicht mehr setzen kann, automatisch die Funktion aus und das WC-Sitzen wird beendet. Durch den automatisierten Vorgang schließt sich das Deckel nach dem Verlassen und ist somit auch durch den Toilettenring.
