Dřez se instaluje pod pracovní desku. Hloubka vaničky 19,3 cm

EAN: 4051202310134

581,76 €

484,80 € bez DPH

The European premium brand **Villeroy & Boch** has been dating back to 1748. With its products, it is represented in more than 125 countries worldwide. Villeroy & Boch is an innovative company with a long tradition - it is one of the most important brands in Germany, Europe, and the world. As a ceramics manufacturer, it has developed into an international lifestyle brand.

Subway 545 Sink belongs to the prestigious collection of sinks by Villeroy Boch. The sink creates an elegant and simple impression. It fits perfectly into various kitchen styles such as the so-called Vintage style, rustic style, etc.

The sink has a large main compartment, where you can easily wash larger dishes. Villeroy & Boch Subway 545 is a sink **intended for undermount installation**. This installation is recommended for natural stone, marble, composite material, or glass countertops. The edge of the sink is sealed with a sealing material, and the sink rim forms a working surface and is secured from below with special mounting brackets. We do not recommend installing the undermount sink on wooden and laminate countertops, as the frequent contact of the countertop edge with water could damage it.

The surface of the Villeroy & Boch Subway 545 sink is **treated with the CeramicPlus system**. This means that the sealed non-porous ceramic surface prevents dirt, cooking waste, and unsightly limescale buildup on your kitchen sink. The time spent in the kitchen will thus become a real pleasure.

Key features of the VILLEROY & BOCH SUBWAY 545 kitchen sink (Subway 60 SU Undercounter 331001)

- white ceramics, one sink, without a drainboard
- Subway 545 has an extended warranty of 5 years.
- ideal sink for smaller kitchens

- it will fit perfectly into the so-called style of rustic kitchens
- Original and luxurious design
- intended for installation under the worktop
- High-quality ceramic sink made from 100% natural materials.
- craftsmanship supported by 270 years of ceramic experience
- Thanks to CeramicPlus, it is easily maintained in cleanliness.

A ceramic sink is fired in kilns and the glaze is applied by hand, making each piece unique. It is necessary to take into account a tolerance of +/- 1-1.5 cm in dimensions. We recommend having the sink physically available for the realization of the kitchen counter.
